This index contains:	***This index does not contain:***
All articles Any letter that corrects or adds to an article Any reviews that contain a significant amount of modelling or colour info All obituaries	Any Society business other than reports on the Nationals/SMW Basic reviews that do not contain a significant amount of modelling or colour info

The first 12 issues of the Magazine in 1963/64 were actually newsletters produced from typed wax master sheets used on a Roneo 'Gestetner' ink-duplicator which transferred ink on to foolscap (8" x 13") paper with the 'printed' sheets then stapled together by hand. In January 1965 a recognisable Magazine appeared but still produced by typewriter. Issues were slightly larger than A5 with a black/white photo on a card cover, each issue was now dated and had an issue/volume number but few articles included diagrams or plans. The July 1967 Magazine was the first to be produced by a commercial printing process on gloss paper and to include photographs. From 2001 some colour pages regularly appeared but it was 2007 before the all-colour Magazine we know today became the norm!

Note 1 - although not 'regular Magazines' the 2001 and 2002 Scale ModelWorld Show Guides each included 'typical' Magazine articles as well as the timetable and floorplans for that SMW. These two SMW Show Guides are included in my Index as 4/2001 and 3A/2002 (the issue numbers given by their Editors). The later 2012-2023 SMW Show Guides do not include any modelling articles. In 2024 and 2025 the SMW Show Guides again contained modelling articles and so details appear with the issue numbers 5A/2024 and 5A/2025.
